MEMORANDUM
06 February 2020

**For: Regional Directors and BARMM Education Minister
Schools Division Superintendents
ESSD and SGOD Chiefs
Regional and Division Health Officers
Public School Heads**

**Subject: CLOSE MONITORING OF CASES OF INFECTIOUS
DISEASES**

In view of the vulnerability of school children in acquiring communicable diseases such as measles, influenza, chicken pox and the like, early detection of illness is important for immediate treatment and prevention of outbreaks. These diseases may be transmitted from person to person, from an animal to a person, or by touching a person or object that has the bacteria or virus on it, then touching the eyes, the mouth, and/or the nose.

The general signs and symptoms of communicable diseases that need to be observed include fever, headache, cough, body malaise (body weakness), easy fatiguability, runny nose, sore throat, and rashes.

In line with this, all schools are advised to closely monitor the health status of learners, specifically for possible presence of infection. The Preventive Alert System in Schools (PASS) currently operationalized per DepEd Memorandum No. 15, s. 2020 (Enclosure No. 4) shall be used for this purpose. Daily health inspection shall be conducted routinely by the teachers and health personnel, and referral of cases shall be done to proper health authorities.

School Health Personnel at the Schools Division Office shall include a consolidated report on the diagnosed cases of the abovementioned diseases in the weekly 2019-nCoV Health Situation Report (Enclosure No. 9 to DM 015, s. 2020), to be submitted on or before 12:00 noon, every Friday, through e-mail medical.nursing@deped.gov.ph (CC: blss.shd@deped.gov.ph), using the template below:

DUB MEMO DS-0120-0585
MEMORANDUM
23 January 2020

**For: Regional Directors
Schools Division Superintendents**

**Subject: DEPARTMENT OF EDUCATION'S RESPONSE ON THE
HEALTH PROBLEMS DUE TO CORONAVIRUS**

In view of the confirmation of the Department of Health (DOH) on the case of the novel coronavirus or 2019-nCoV from a five-year old Chinese boy who arrived from China and showed signs of fever, cough and throat irritation in Cebu City, this Office issues and warns against the health issues which may be caused by the said virus.

Coronavirus is from a family of viruses that can cause various diseases characterized by cough and colds, fever difficulty in breathing and shortness of breath that may lead to serious infections, pneumonia, acute respiratory syndrome, kidney problems and even death.

It is advised to make handwashing a habit, always cover one's mouth and nose when coughing and sneezing to stop the possible spread of the virus, drink plenty of water and ensure food are cooked properly, consult a health facility if symptoms of cough and colds persist.

This Memorandum is issued to alert all school officials on the health issues brought about by the virus and to take appropriate precautionary measures.

For strict compliance.
